THE CHALLENGE

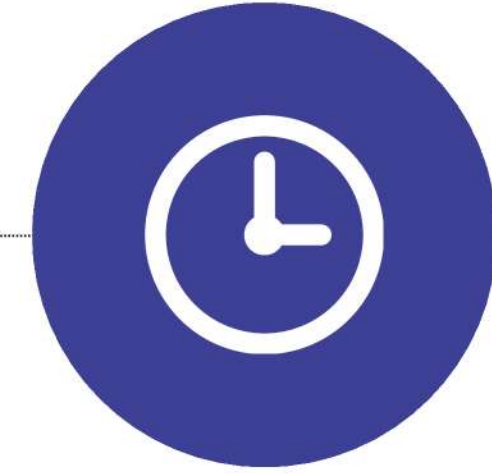

80%

of business data is
unstructured

\$4.6T

lost annually to document
inefficiencies

60%

of employee time spent on
manual data tasks

Businesses are drowning in paper, PDFs, faxes, and emails — legacy OCR can't keep up with today's document complexity.

SkyIDP Reader

is a next-generation Intelligent Document Processing platform that leverages AI and Machine Learning to automate document handling at scale.

From scanned documents, PDFs, and emails - SkyIDP extracts, classifies, validates, and integrates critical data into your existing systems automatically.

Seamlessly processes handwritten and multi-language documents.

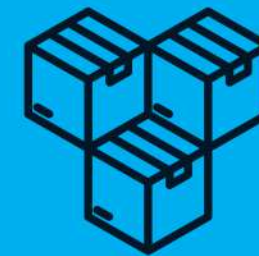

Documents to data, instantly !

AI-Powered OCR

Multi-Source Ingestion

Smart Data Validation

Seamless Integration

HOW IT WORKS

01 Ingestion

Documents arrive via eFax, Email, Scanner, HTTP, or manual upload

02 Processing

AI cleans, rotates, deskews & classifies documents automatically

03 Extraction

ML models extract text, key-value pairs & structured tables

05 Integration

Seamlessly exports to ERP, CRM, RPA, BPM & message brokers

04 Validation

Data is cross-validated against internal & external data sources

Built to decode handwriting and multiple languages with precision.

01

Intelligent Automation

Eliminate repetitive data entry. Let AI handle document ingestion, classification, and extraction 24/7.

02

10× Faster Processing

Reduce document turnaround from hours to seconds — dramatically accelerating business cycles.

03

70% Cost Reduction

Cut manual processing costs by automating high-volume document workflows across departments.

04

99%+ Accuracy

AI-validated extraction minimises human errors, ensuring data quality you can rely on.

05

Enterprise-Grade Security

Role-based access, audit trails, and encrypted data handling built-in from day one.

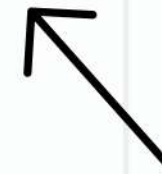

06

Seamless Integration

Plug directly into ERP, CRM, RPA, BPM and custom APIs with zero disruption.

Value Highlights

Exploring creativity

01

Optical Character Recognition

Converts images of text into machine-readable, searchable content with high fidelity.

02

Natural Language Processing

Understands document context, intent, and relationships — beyond just characters.

04

Artificial Intelligence

The intelligent core: learns, adapts, and handles new document types without reprogramming.

03

Machine Learning

Continuously trained models improve extraction accuracy with every document processed.

Automation that drives ROI.

INDUSTRY USE CASES

01 Finance & Accounting

Automate invoice processing, purchase orders, and financial reconciliation.

02 Healthcare

Extract patient referrals, fax orders & homecare prescriptions instantly.

03 Insurance

Accelerate claims processing with intelligent document classification.

04 Supply Chain

Automate proof-of-delivery tracking and shipment documentation.

05 Banking & Loans

Streamline loan applications and KYC document verification.

06 Education

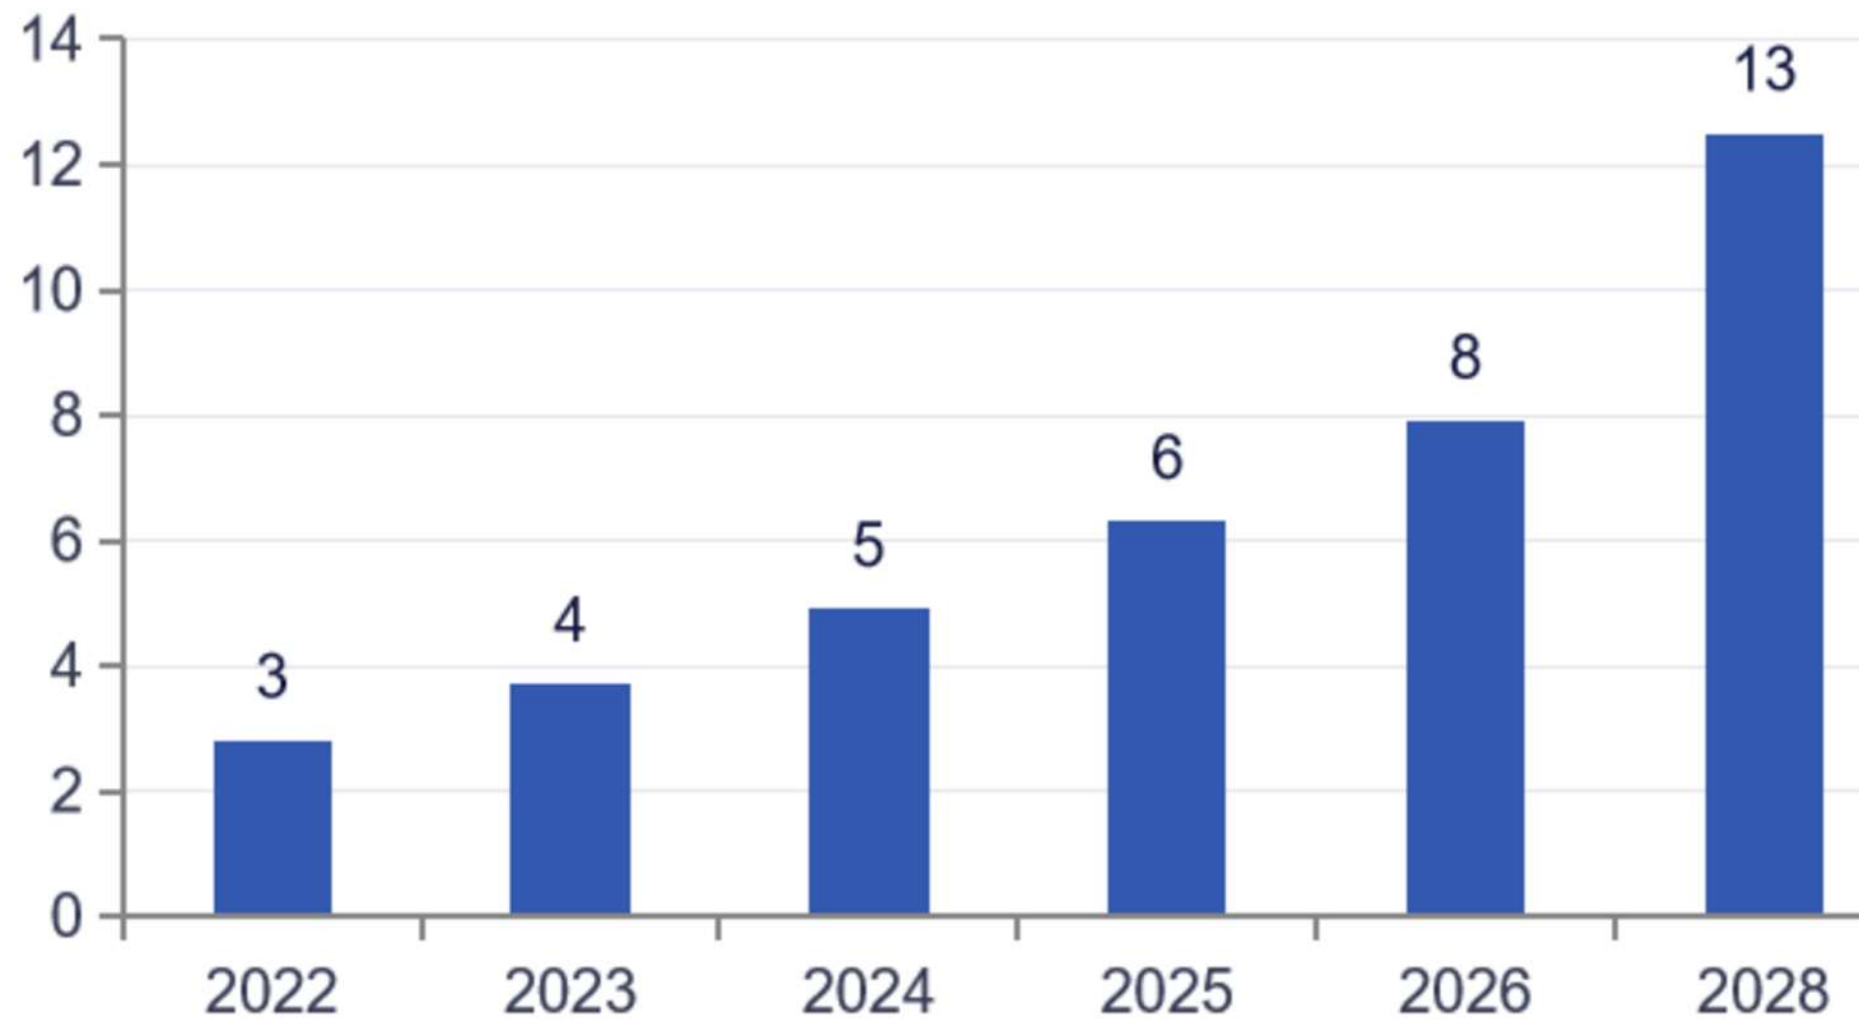

Digitise handwritten notes, assignments and printed study materials.

What Makes It Special

Powering the future of document intelligence.

IDP Global Market Size (\$B)

Turn documents into decisions.

WHY INVEST IN SKYIDP

SkyIDP Reader is positioned to become a scalable AI SaaS leader in the rapidly growing document intelligence market.

ROI-Driven Value

5

Supported Input Channels

5+

Output Integrations

Engineered for intelligent data.

Massive & Growing TAM

The IDP market is projected at \$12.5B by 2028 with 30%+ CAGR. We are positioned in the heart of it.

First-Mover in SME Segment

While enterprise giants focus upmarket, SkyIDP targets the underserved SME and mid-market segment globally.

Proven Technology

Live deployments across healthcare, finance & logistics. Not just a concept - real customers, real ROI.

Let's Build the Future Together

SkyIDP Reader is ready to transform how your organisation handles documents.

We invite investors, partners, and customers to join us on this journey.
